COMPANY OVERVIEW

Sundial (“SNDL”, “Sundial” or the “Company”) is a licensed producer that grows cannabis using state-of-the-art indoor facilities. Sundial was incorporated under the *Business Corporations Act (Alberta)* on August 19, 2006. The Company's common shares are listed under the symbol “SNDL” on the NASDAQ Capital Market (“Nasdaq”).

Sundial is headquartered in Calgary, Alberta, with operations in Olds, Alberta, and Rocky View County, Alberta.

The principal activities of the Company are the production, distribution and sale of cannabis in Canada pursuant to the Cannabis Act and the deployment of capital to investment opportunities. The Cannabis Act regulates the production, distribution, and possession of cannabis for both medical and adult recreational access in Canada.

Sundial currently produces and markets cannabis products for the Canadian adult-use market. Sundial's purpose-built indoor modular grow rooms create consistent, highly controlled cultivation environments and are the foundation of the Company's production of high-quality, strain-specific cannabis products. Sundial's operations cultivate cannabis using an individualized “room” approach, in approximately 448,000 square feet of total space. The Company has established supply agreements with nine Canadian provinces and has a distribution network that covers 98% of the national recreational industry.

The Company's primary focus has been on producing and distributing premium inhalable products and brands. Upon receiving a licence from Health Canada to sell cannabis oil products, the Company began the sale and distribution of cannabis vape products in December 2019. The Company is currently marketing its adult-use products under its *Top Leaf* (Premium), *Sundial Cannabis* (Premium Core), *Palmetto* (Core) and *Grasslands* (Value) brands and intends to introduce new products under these brands as it expands its brand portfolio.

In July 2019, the Company acquired Project Seed Topco (“Bridge Farm”) and its wholly owned subsidiaries, a grower of ornamental plants and herbs in the United Kingdom with the intent to transition Bridge Farm's facilities to the cultivation, processing and distribution of cannabidiol (“CBD”) products. On June 5, 2020, the Company completed the Bridge Farm Disposition as described under “Discontinued Operations – Ornamental Flowers”.

Sundial and its subsidiaries currently operate solely in Canada. Through its joint venture, SunStream Bancorp Inc. (“SunStream”), the Company also provides growth capital and a strategic support platform that pursues indirect investment opportunities in the global cannabis sector, where lawful, as well as other investment opportunities. The Company also makes portfolio investments in debt and equity securities where deemed strategic.

Sundial's overall strategy is to build sustainable, long-term shareholder value by reducing leverage, improving liquidity and cost of capital while optimizing the capacity and capabilities of its production facilities in the creation of a consumer-centric brand and product portfolio. Sundial's investment operations seek to deploy strategic capital through direct and indirect investments and partnerships throughout the global cannabis industry.

To achieve this, Sundial will continue to focus on:

- Meeting evolving consumer preferences by being a consumer-centric organization.
- Delivering industry-leading, best-in-class brands and products with a focus on inhalables.
- Driving quality in all aspects of our operation and being positioned to deliver products that consumers want when they want them.
- Improving cost discipline and maintaining a variable cost structure to adapt to industry dynamics.
- Strategically deploying capital with a focus on maximizing cash flows and shareholder value.

RECENT DEVELOPMENTS

ACQUISITION OF INNER SPIRIT HOLDINGS AND SPIRITLEAF RETAIL CANNABIS NETWORK

On May 5, 2021, the Company and Inner Spirit Holdings Ltd. (“Inner Spirit”) announced that they had entered into an arrangement agreement pursuant to which the Company will acquire all of the issued and outstanding common shares of Inner Spirit (the “Transaction”). The Transaction closed on July 20, 2021. Inner Spirit is a retailer and franchisor of

Spiritleaf recreational cannabis stores across Canada, with a network that includes more than 100 franchised and corporate-owned locations.

The Transaction consideration was comprised of (i) an aggregate \$92.6 million cash (\$0.30 in cash for each Inner Spirit common share), and (ii) an aggregate 24.4 million Sundial common shares value at \$19.8 million based on the fair value of each common share of the Company on the closing date (0.0835 of a Sundial common share for each Inner Spirit common share).

On August 4, 2021, the Company issued 2.5 million common shares related to the settlement of Inner Spirit debt.

The Company plans to finalize the allocation of the purchase price and the accounting for the Transaction by the end of the current fiscal year.

CAPITAL ACTIVITIES

During the six months ended June 30, 2021, the Company issued 796.3 million common shares at a weighted average exercise price of US\$0.8597 for gross proceeds of \$855.2 million (US\$684.6 million) through its at-the-market (“ATM”) programs. The Company also completed two registered direct offerings for gross proceeds of \$223.4 million and received gross proceeds of \$118.6 million from the exercise of warrants issued in connection with those registered direct offerings (see “Other Developments – Registered Direct Offerings” for more information). At June 30, 2021, the Company had an unrestricted cash balance of \$885.4 million.

The capital raised has funded the deployment of capital toward strategic investments. The Company developed an internal capital program to evaluate these and potential future investments, which the Company viewed as a new and separate business line from its cannabis operations.

Based on the allocation of the Company’s resources by the chief operating decision maker and the information used to analyze the performance of the business, the Company concluded that beginning in Q1 2021, it had two operating segments: cannabis and investments.

See “Financial Results – Consolidated” for more information.

At June 30, 2021, the Company had deployed a portion of the capital raised in several cannabis-related investments, totaling \$163.0 million. These investments generated \$21.5 million in interest and fee revenue and realized and unrealized gains in the first half of 2021. In addition, the Company deployed \$188 million in SunStream and has recognized \$3.7 million in net profit from its investments in SunStream.

The Company continues to strategically deploy capital with a focus on maximizing cash flows and shareholder value.

STRATEGIC CAPITAL PARTNERSHIP

On March 15, 2021, the Company and SAF Group (“SAF”) announced they had entered into an agreement to form a 50/50 joint venture through a new corporation, SunStream Bancorp Inc. SunStream is a private company focused on cannabis-related verticals, seeking both Canadian and international opportunities and investments.

On July 7, 2021, the Company announced that it had increased its commitment to SunStream to \$538 million from the previously announced commitment of \$188 million.

See “Investment Results – Share of profit of equity-accounted investees” for more information.

OTHER DEVELOPMENTS

REGISTERED DIRECT OFFERINGS

On February 2, 2021, the Company issued 100.0 million series A units (the “Series A Units”), each consisting of one common share and one-half series A warrant (collectively, the “Series A Warrants”) to purchase one common share and 33.3 million series B units (the “Series B Units”), each consisting of one pre-funded series B warrant (the “Series B Warrants”) to purchase one common share and one-half Series A Warrant to purchase one common share (collectively, the “January 2021 Units Offering”). Each Series A Unit was sold at a price of US\$0.75 per unit and each Series B Unit was sold at a price of US\$0.75 per unit, less US\$0.0001 per unit. Gross proceeds from this offering were US\$100.0 million. The Series A

Warrants and Series B Warrants were exercisable immediately and had a term of five years commencing on the date of issuance. The exercise price of the Series A Warrants was US\$0.80 per common share and the exercise price of the Series B Warrants was US\$0.0001 per common share.

On February 2, 2021, the entire 33.3 million Series B Warrants were exercised resulting in the issuance of 33.3 million common shares.

On February 10, 2021, 3.3 million Series A Warrants were exercised at a weighted average exercise price of US\$0.80 per warrant resulting in the issuance of 3.3 million common shares and gross proceeds to the Company of US\$2.7 million.

On February 4, 2021, the Company issued 60.5 million additional Series A units (the "Additional Series A Units"), each consisting of one common share and one-half additional series A warrant (collectively, the "Additional Series A Warrants") to purchase one common share and 14.0 million additional series B units (the "Additional Series B Units"), each consisting of one pre-funded additional series B warrant (the "Additional Series B Warrants") to purchase one common share and one-half Additional Series A Warrant to purchase one common share, (collectively, the "February 2021 Units Offering"). Each Additional Series A Unit was sold at a price of US\$1.00 per unit and each Additional Series B Unit was sold at a price of US\$1.00 per unit, less US\$0.0001 per unit. Gross proceeds from this offering were US\$74.5 million. The Additional Series A Warrants and Additional Series B Warrants were exercisable immediately and had a term of five years commencing on the date of issuance. The exercise price of the Additional Series A Warrants was US\$1.10 per common share and the exercise price of the Additional Series B Warrants was US\$0.0001 per common share.

On February 4, 2021, the entire 14.0 million Additional Series B Warrants were exercised resulting in the issuance of 14.0 million common shares.

On February 10, 2021, 2.3 million Additional Series A Warrants were exercised at a weighted average exercise price of US\$1.10 per warrant resulting in the issuance of 2.3 million common shares and gross proceeds to the Company of US\$2.5 million.

On February 22, 2021, (i) the remaining 63.3 million Series A Warrants were exercised at a weighted average exercise price of US\$0.80 per warrant resulting in the issuance of 63.3 million common shares and gross proceeds to the Company of US\$50.7 million and (ii) the remaining 35.0 million Additional Series A Warrants were exercised at a weighted average exercise price of US\$1.10 per warrant resulting in the issuance of 35.0 million common shares and gross proceeds to the Company of US\$38.5 million. In connection with this exercise, the Company issued 98.3 million new warrants (the "New Warrants"), each entitling the holder to purchase one common share at an exercise price of US\$1.50, subject to customary anti-dilution adjustments. The Company has granted the holders rights to have the common shares issuable upon exercise of the New Warrants registered pursuant to a registration statement filed with the SEC. Such registration statement was filed with the SEC on March 3, 2021. The New Warrants are immediately exercisable and have a term of 42 months from March 18, 2021, which is the effective date of the registration statement.

INDIVA INVESTMENT

On February 16, 2021, the Company announced a \$22 million strategic investment (the "Indiva Investment") in Indiva Limited ("Indiva"). Indiva is a leading Canadian producer of cannabis edibles. The Indiva Investment closed on February 23, 2021. The Indiva Investment was completed in the form of a brokered private placement of 25 million common shares of Indiva at a price of \$0.44 per common share, for gross proceeds of \$11 million, and a non-revolving term loan to Indiva in the principal amount of \$11 million (the "Term Loan"). The Term Loan bears interest at a rate of 9% per annum and has a maturity date of February 23, 2024.

REDUCTION IN PATHWAY OWNERSHIP

On March 23, 2021, the Company's equity interest in its subsidiary, Pathway RX Inc. ("Pathway"), decreased from 50% to 25%, resulting in a loss of control. The Company decreased its equity interest in connection with amending the license agreement that provides for use of Pathway's intellectual property.

COVID-19

The Company is monitoring daily developments in the COVID-19 pandemic and actions taken by the government authorities in response thereto. As the safety of employees, communities and family is a priority for the Company, it will continue to commit to all current safety protocols in place, which include mandatory mask wearing, physical distancing,

enhanced cleaning and sanitation processes and frequency, and enhanced screening measures prior to allowing employees and visitors into the facilities. The Company believes that it can maintain safe operations with these pandemic-related procedures and protocols in place.

NASDAQ MINIMUM BID REQUIREMENT

On August 9, 2021, the Company was notified by the Nasdaq Listing Qualifications Department that the closing bid price of the Company's common shares for the 30 consecutive business day period from June 25, 2021, to August 6, 2021 did not meet the minimum bid price of \$1.00 per share requirement, as set forth in Nasdaq Listing Rule 5550(a)(2) (the "Minimum Bid Requirement"). The notice has no immediate effect on the trading of the Company's common shares on the Nasdaq.

Pursuant to the Nasdaq Listing Rules, the Company has been provided with a compliance period of 180 calendar days from the date of notification in which to regain compliance with the Minimum Bid Requirement. As a result, the Company has until February 7, 2022, to regain compliance with the Minimum Bid Requirement. If at any time prior to February 7, 2022, the closing bid price of the Company's common stock is at least \$1.00 for a minimum of ten consecutive business days, the Company will be considered by Nasdaq to have regained compliance with the Minimum Bid Requirement.

Additionally, if the Company does not regain compliance with the Minimum Bid Requirement by February 7, 2022, the Company may be eligible for an additional period of 180 days during which to achieve compliance, provided that the Company otherwise meets the continued listing requirement for market value of publicly held shares and all other initial listing standards for The Nasdaq Capital Market, with the exception of the Minimum Bid Requirement, and provides written notice to Nasdaq of the Company's intention to remedy the non-compliance during this second compliance period, by effecting a reverse stock split if necessary. Nasdaq has the right not to grant the additional cure period if it appears to it that the Company will not be able to cure the deficiency or is not otherwise eligible.

The Company will actively monitor its closing bid price during the compliance period and intends to take appropriate measures to remedy the deficiency and regain compliance with the Minimum Bid Requirement.

(4) Net of payment discounts with respect to sales under Sundial's supply agreements with Canadian provincial regulatory authorities.

(5) Net of excise tax.

CONSOLIDATED RESULTS

OPERATING SEGMENTS

Late in the fourth quarter of 2020 the Company began the deployment of capital toward strategic investments. The Company developed an internal capital program to evaluate these and potential future investments, which the Company viewed as a new and separate business line from its cannabis operations.

Based on the allocation of the Company's resources by the chief operating decision maker and the information used to analyze the performance of the business, the Company concluded that beginning in Q1 2021, it had two operating segments: cannabis and investments. For the three and six months ended June 30, 2020, there was only one reportable segment and therefore no comparative segment information.

The Company's reportable segments are organized by business line and are comprised of two reportable operating segments: cannabis operations and investment operations. Cannabis operations include the cultivation, distribution and sale of cannabis for the adult-use market and medical markets in Canada. Investment operations include the deployment of capital to investment opportunities. Certain overhead expenses not directly attributable to either the cannabis operations segment or investment operations segment are reported in a third segment referred to as "Corporate".

Other	966	1,116	1,499	1,798
	10,086	7,735	17,179	18,343

General and administrative expenses for the three months ended June 30, 2021 were \$10.1 million compared to \$7.7 million for the three months ended June 30, 2020. The increase of \$2.4 million was mainly due to increases in salaries and wages, office and general and professional fees.

General and administrative expenses for the six months ended June 30, 2021 were \$17.2 million compared to \$18.3 million for the six months ended June 30, 2020. The decrease of \$1.1 million was mainly due to decreases in consulting fees and office and general, partially offset by an increase in salaries and wages.

SHARE-BASED COMPENSATION

(\$000s)	Three months ended June 30		Six months ended June 30	
	2021	2020	2021	2020
Simple warrants	1,033	1,492	1,630	1,774

Deferred share units	1,866	1,046	3,011	1,208
	4,539	3,152	7,995	3,947

Share-based compensation expense includes the expense related to the issuance of simple and performance warrants, stock options, restricted share units (“RSUs”) and deferred share units (“DSUs”) to employees, directors, and others at the discretion of the Company’s Board.

The fair value of the Company’s shares is based on public trading data. The estimated fair value of the Company’s common shares at the time of grant is used to determine the associated share-based compensation expense. The Company determines the amount of share-based compensation expense by utilizing the Black-Scholes pricing model with inputs based on the terms of the award, including the strike price, and other estimates and assumptions, including the expected life of the award, the volatility of the underlying share price, the risk-free rate of return and the estimated rate of forfeiture of the awards granted.

Share-based compensation expense for the three months ended June 30, 2021 was \$4.5 million compared to \$3.2 million for the three months ended June 30, 2020. The increase of \$1.3 million was due to an increase in the number of RSUs and DSUs granted in the prior quarter. Share-based compensation expense for the three months ended June 30, 2021 included the issuance of 400 RSUs and 242,826 DSUs. Share-based compensation expense for the three months ended June 30, 2020 included the issuance of 1,982,953 RSUs, 1,257,369 DSUs and 481,600 stock options at an average exercise price of \$1.16.

Share-based compensation expense for the six months ended June 30, 2021 was \$8.0 million compared to \$3.9 million for the six months ended June 30, 2020. The increase of \$4.1 million was due to an increase in the number of RSUs and DSUs granted. Share-based compensation expense for the six months ended June 30, 2021 included the issuance of 12,313,300 RSUs and 1,709,852 DSUs under the Company’s long-term incentive programs designed to align employee and director compensation with Company performance on a Company-wide basis. Share-based compensation expense for the six months ended June 30, 2020 included the issuance of 2,998,913 RSUs, 1,289,901 DSUs and 481,600 stock options at an average exercise price of \$1.16.

Change in estimate of fair value of derivative warrants for the three months ended June 30, 2021 was a recovery of \$19.8 million compared to a recovery of \$0.4 million for the three months ended June 30, 2020. Change in estimate of fair value of derivative warrants for the six months ended June 30, 2021 was an expense of \$110.1 million compared to a recovery of \$0.4 million for the six months ended June 30, 2020 reflecting the fair value of derivative warrants issued and partially converted.

The carrying amount is an estimate of the fair value of the derivative warrants and is presented as a current liability, pursuant to IFRS requirements due to the warrant exercise prices being denominated in United States dollars. Refer to note 23 in the condensed consolidated interim financial statements for valuation methodology. The Company has no cash obligation with respect to the derivative warrants, rather it will deliver common shares if and when warrants are exercised.

Net loss from continuing operations	(52,287)	(32,827)	(186,732)	(70,776)

Net loss for the three months ended June 30, 2021 was \$52.3 million compared to a net loss of \$32.8 million for three months ended June 30, 2020. The increase of \$19.5 million was due to lower net revenue, higher general and administrative expenses, higher share-based compensation expense and an asset impairment, partially offset by lower cost of sales, lower inventory obsolescence provision, change in fair value of biological assets, change in fair value realized through inventory, interest and fee revenue, investment revenue, share of profit of equity-accounted investees, no restructuring costs in the current period and change in fair value of derivative warrant liabilities.

Net loss for the six months ended June 30, 2021 was \$186.7 million compared to a net loss of \$70.8 million for six months ended June 30, 2020. The increased loss of \$115.9 million was due to lower net revenue, change in fair value of biological assets, higher share-based compensation expense, higher asset impairment, higher transaction costs and change in fair value of derivative warrants, partially offset by lower cost of sales, lower inventory obsolescence provision, change in fair value realized through inventory, interest and fee revenue, investment revenue, share of profit of equity-accounted investees, lower general and administrative expenses, no restructuring costs in the current period, and lower finance costs.

ADJUSTED EBITDA FROM CONTINUING OPERATIONS

(1) The non-IFRS measure of adjusted EBITDA is reconciled to net loss in accordance with IFRS in the "NON-IFRS MEASURES" section of this MD&A and discussed further in the "ADVISORY" section of this MD&A.

Adjusted EBITDA from continuing operations does not have standardized meaning prescribed by IFRS and therefore may not be comparable to similar measures used by other companies.

Adjusted EBITDA from continuing operations was a loss of \$0.2 million for the three months ended June 30, 2021 compared to a loss of \$3.9 million for the three months ended June 30, 2020. The decreased loss was due to the following:

- Decrease in cost of sales due to decreases in kilogram equivalents sold and per gram costs;
- Investment revenue;
- Interest and fee revenue; and
- Share of profit of equity-accounted investees.

The decrease was partially offset by:

- Decrease in net revenue due to decreases in kilogram equivalents sold and sales prices;
- Increase in general and administrative expenses due to higher salaries and wages, office and general and professional fees; and
- Increase in sales and marketing expenses due to an increase in general marketing activities.

Adjusted EBITDA from continuing operations was \$3.1 million for the six months ended June 30, 2021 compared to a loss of \$15.5 million for the six months ended June 30, 2020. The increase was due to the following:

- Decrease in cost of sales due to decreases in kilogram equivalents sold and per gram costs;
- Decrease in general and administrative expenses due to lower consulting fees and office and general;
- Investment revenue;
- Interest and fee revenue; and
- Share of profit of equity-accounted investees.

The increase was partially offset by:

- a decrease in net revenue due to decreases in kilogram equivalents sold and sales prices.

Total kilogram equivalents sold	5,412	5,997	9,401	10,434

For the three months ended June 30, 2021, the Company sold 5,412 kilogram equivalents of cannabis compared to 5,997 kilogram equivalents for the three months ended June 30, 2020. The decrease of 585 kilogram equivalents sold was due to a decrease in kilogram equivalents sold to other licensed producers (“LPs”), partially offset by an increase in kilogram equivalents sold to provincial boards. The Company’s sales growth strategy is to continue targeting branded sales to provincial boards.

For the six months ended June 30, 2021, the Company sold 9,401 kilogram equivalents of cannabis compared to 10,434 kilogram equivalents for the six months ended June 30, 2020. The decrease of 1,033 kilogram equivalents sold was due to a decrease in kilogram equivalents sold to other LPs, partially offset by an increase in kilogram equivalents sold to provincial boards. The Company’s sales growth strategy is to continue targeting branded sales to provincial boards.

Average net selling price	\$ 1.69	\$ 3.37	\$ 2.03	\$ 3.28

For the three months ended June 30, 2021, the average net selling price was \$1.69 per gram equivalent compared to \$3.37 for the three months ended June 30, 2020. The decrease of \$1.68 per gram equivalent was mainly due to lower prices for provincial board sales and lower prices for sales to other LPs. Sales prices have decreased due to continued growth of the discount segment and a lack of available quality product.

For the six months ended June 30, 2021, the average net selling price was \$2.03 per gram equivalent compared to \$3.28 for the six months ended June 30, 2020. The decrease of \$1.25 per gram equivalent was mainly due to lower prices for provincial board sales and lower prices for sales to other LPs. Sales prices have decreased due to continued growth of the discount segment and a lack of available quality product.

The principal drivers of the Company’s realized prices are the formats of the products sold (currently both bulk and packaged flower, inhalables and accessories, trim, bulk extracted oil, edibles and concentrates) and the channels in which products are sold (principally Canadian provincial boards and LPs).

Excise taxes are the federal excise duties and additional provincial or territorial duties payable on adult-use cannabis products. Excise taxes for the six months ended June 30, 2021 and 2020 are only calculated based on adult-use end-consumer packaged cannabis sales.

The Company's revenue comprises bulk and packaged sales under the Cannabis Act pursuant to its supply agreements with Canadian provincial regulatory authorities and to other LPs. The Company's sales growth strategy is to continue targeting branded sales to provincial boards.

Gross revenue for the three months ended June 30, 2021 was \$12.7 million compared to \$24.3 million for the three months ended June 30, 2020. The decrease of \$11.6 million was due to a decrease in selling prices and a decrease in kilogram equivalents sold. Provincial board revenue decreased by \$7.2 million due to a decrease in selling prices, partially offset by a minor increase in kilogram equivalents sold. LP revenue decreased by \$4.3 million due to a decrease in kilogram equivalents sold and a decrease in selling prices.

Gross revenue for the six months ended June 30, 2021 was \$24.5 million compared to \$40.9 million for the six months ended June 30, 2020. The decrease of \$16.4 million was due to a decrease in selling prices and a decrease in kilogram equivalents sold. Provincial board revenue decreased by \$8.4 million due to a decrease in selling prices, partially offset by an increase in kilogram equivalents sold. LP revenue decreased by \$8.0 million due to a decrease in kilogram equivalents sold and a decrease in selling prices.

Excise taxes are the federal excise duties and additional provincial or territorial duties payable on adult-use cannabis products at the time such product is shipped from the production facility in its final consumer-facing packaging. Federal duties on adult-use cannabis products are calculated as the greater of (i) \$0.25 per gram of flowering material, (ii) \$0.75 per gram of non-flowering material or \$0.25 per viable seed or seedling and (iii) 2.5% of the dutiable amount as calculated in accordance with the Excise Act, 2001. The rates of provincial or territorial duties vary.

Excise taxes for the three months ended June 30, 2021 were \$3.6 million compared to \$4.1 million for the three months ended June 30, 2020. The decrease of \$0.5 million was due to a decrease in sales to provincial boards from the comparative period.

Excise taxes for the six months ended June 30, 2021 were \$5.4 million compared to \$6.7 million for the six months ended June 30, 2020. The decrease of \$1.3 million was due to a decrease in sales to provincial boards from the comparative period. No excise taxes are payable on sales to other LPs.

COST OF SALES

(\$000s, except as indicated)	Three months ended June 30		Six months ended June 30	
	2021	2020	2021	2020
Cost of sales	9,534	17,336	20,979	30,843
Cost of sales per gram sold	\$ 1.76	\$ 2.89	\$ 2.23	\$ 2.96

Cost of sales includes three main categories: pre-harvest, post-harvest and shipment and fulfillment costs. These costs are incurred in respect of cultivating, harvesting, processing and packaging cannabis products. Pre-harvest costs include all direct and indirect costs incurred between initial recognition and the point of harvest, including labour-related costs, grow consumables, materials, utilities, facilities costs and depreciation related to production facilities. Post-harvest costs include all direct and indirect costs incurred subsequent to the point of harvest, including labour-related costs, consumables, materials, utilities and facilities costs. Shipment and fulfillment costs include packaging, transportation, quality control and testing costs.

Cost of sales for the three months ended June 30, 2021 were \$9.5 million compared to \$17.3 million for the three months ended June 30, 2020. The decrease of \$7.8 million was due to a decrease in kilogram equivalents sold compared to the prior period and a decrease in the cost of sales per gram sold compared to the prior period. Cost of sales per gram sold for the three months ended June 30, 2021 were \$1.76 compared to \$2.89 for the three months ended June 30, 2020. The decrease of \$1.13 was due to lower per gram costs across all product formats and reflects the Company's focus on cost optimization and offering the most competitive and profitable strains and brands to customers.

Cost of sales for the six months ended June 30, 2021 were \$21.0 million compared to \$30.8 million for the six months ended June 30, 2020. The decrease of \$9.8 million was due to a decrease in kilogram equivalents sold compared to the prior period and a decrease in the cost of sales per gram sold compared to the prior period. Cost of sales per gram sold for the six months ended June 30, 2021 were \$2.23 compared to \$2.96 for the six months ended June 30, 2020. The decrease of \$0.73 per gram sold was due to lower per gram costs across all product formats and reflects the Company's focus on cost optimization and offering the most competitive and profitable strains and brands to customers.

Gross margin	(2,821)	(15,137)	(6,273)	(25,630)

(1) Gross margin before fair value adjustments does not have a standardized meaning prescribed by IFRS and therefore may not be comparable to similar measures used by other companies. The non-IFRS measure of gross margin before fair value adjustments is discussed further in the "ADVISORY" section of this MD&A.

GROSS MARGIN BEFORE FAIR VALUE ADJUSTMENTS

Gross margin before fair value adjustments is defined as net revenue less cost of sales and inventory obsolescence and impairment before adjusting for the non-cash changes in the fair value adjustments on the sale of inventory and the growth of biological assets.

Gross margin before fair value adjustments for the three months ended June 30, 2021 was negative \$2.0 million compared to negative \$7.2 million for the three months ended June 30, 2020. The increase of \$5.2 million was mainly due to lower cost of sales relating to lower sales volumes and costs per gram sold and a lower inventory obsolescence provision compared to the prior period, partially offset by lower net revenue. The inventory obsolescence provision was applied primarily to bulk flower, shake and concentrates due to price compression in the market, as well as certain packaging

inventory. The inventory obsolescence provision in the comparative period was applied primarily to bulk shake and slow-moving bulk oil inventory due to a lack of market demand.

Gross margin before fair value adjustments for the six months ended June 30, 2021 was negative \$5.3 million compared to negative \$14.4 million for the six months ended June 30, 2020. The increase of \$9.1 million was mainly due to lower cost of sales relating to lower sales volumes and costs per gram sold and a lower inventory obsolescence provision compared to the prior period, partially offset by lower net revenue. The inventory obsolescence provision was applied primarily to concentrates, bulk flower and shake due to price compression in the market, as well as certain packaging inventory. The inventory obsolescence provision in the comparative period was applied primarily to bulk shake and slow-moving bulk oil inventory due to a lack of market demand.

The total inventory obsolescence and impairment recognized during the six months ended June 30, 2021 was \$3.3 million, with \$3.4 million relating to cost of sales and negative \$0.1 million relating to the change in fair value realized through inventory. The total inventory obsolescence and impairment recognized during the six months ended June 30, 2020 was \$27.7 million, with \$17.7 million relating to cost of sales and \$10.0 million relating to the change in fair value realized through inventory.

CHANGE IN FAIR VALUE OF BIOLOGICAL ASSETS

Change in fair value of biological assets for the three months ended June 30, 2021 was a decrease of \$0.3 million compared to a decrease of \$1.8 million for the three months ended June 30, 2020. The decrease in the current period relates to decreases in the expected number of plants and a decrease in the expected selling price less costs to sell per gram, partially offset by an increase in the weighted average maturity of the stage of growth. The decrease in the comparative period relates to a decrease in the expected number of plants and minor decreases in the expected selling price less costs to sell per gram and weighted average maturity of the stage of growth.

Change in fair value of biological assets for the six months ended June 30, 2021 was a decrease of \$0.4 million compared to an increase of \$4.7 million for the six months ended June 30, 2020. The decrease in the current period relates to decreases in the expected number of plants and expected selling price less costs to sell per gram, partially offset by an increase in the weighted average maturity of the stage of growth. The increase in the comparative period relates to an increase in the expected selling price less costs to sell per gram, partially offset by a decrease in the expected number of plants and a decrease in the weighted average maturity of the stage of growth.

Biological assets consist of cannabis plants in various stages of vegetation, including clones, which have not been harvested. Net unrealized changes in fair value of biological assets less cost to sell during the period are included in the results of operations for the related period. Biological assets are presented at their fair values less costs to sell up to the point of harvest. The fair values are determined using a model which estimates the expected harvest yield in grams for plants currently being cultivated, and then adjusted for the amount for the expected selling price less costs to sell per gram.

CHANGE IN FAIR VALUE REALIZED THROUGH INVENTORY

(\$000s)	Three months ended June 30		Six months ended June 30	
	2021	2020	2021	2020
Change in fair value realized through inventory sold	(593)	(2,849)	(643)	(5,882)
Change in fair value recognized through inventory obsolescence provision	137	(3,364)	137	(10,023)
Change in fair value realized through inventory	(456)	(6,213)	(506)	(15,905)

The change in fair value realized through inventory for the three months ended June 30, 2021 was a decrease of \$0.5 million compared to a decrease of \$6.2 million for the three months ended June 30, 2020. The increase of \$5.7 million was due to the fair value component of the excess and obsolete inventory provision and the reversal of prior period increases in fair value of biological assets as they are transferred to inventory and sold.

The change in fair value realized through inventory for the six months ended June 30, 2021 was a decrease of \$0.5 million compared to a decrease of \$15.9 million for the six months ended June 30, 2020. The increase of \$15.4 million was due

to the fair value component of the excess and obsolete inventory provision in the comparative period and the reversal of prior period increases in fair value of biological assets as they are transferred to inventory and sold.

Change in fair value realized through inventory comprises fair value adjustments associated with the cost of inventory when such inventory is sold. Inventories are carried at the lower of cost and net realizable value. When sold, the cost of inventory is recorded as cost of sales, while fair value adjustments are recorded as change in fair value realized through inventory.

SALES AND MARKETING

(\$000s)	Three months ended June 30		Six months ended June 30	
	2021	2020	2021	2020
Sales and marketing	1,315	518	2,265	2,310

Sales and marketing expenses consist of brand development and promotion expenses, marketing personnel and related costs.

Sales and marketing expenses for the three months ended June 30, 2021 were \$1.3 million compared to \$0.5 million for the three months ended June 30, 2020. The increase of \$0.8 million was mainly due to an increase in general marketing expenses, partially offset by a decrease in marketing events expenses.

Sales and marketing expenses for the six months ended June 30, 2021 were \$2.3 million compared to \$2.3 million for the six months ended June 30, 2020.

RESTRUCTURING COSTS

	2021	2020	2021	2020
Restructuring costs	—	2,363	—	5,082

Restructuring costs of \$2.4 million and \$5.1 million for the three and six months ended June 30, 2020 represent severance costs relating to the workforce reductions, legal, professional and consulting fees that relate directly to the restructuring and finance costs associated with the amendment and extinguishment of long-term debt.

ASSET IMPAIRMENT

(\$000s)	Three months ended June 30		Six months ended June 30	
	2021	2020	2021	2020
Asset impairment	60,000	—	60,000	5,659

The Company determined that indicators of impairment existed during the six months ended June 30, 2021, with respect to the Company's Olds cash generating unit ("CGU") as a result of curtailment in the utilization of the capacity in the Company's Olds facility to align cannabis production with current demand estimates. A test for impairment was performed at the CGU level by comparing the estimated recoverable amount to the carrying values of the assets. The estimated recoverable amount of the assets was determined to be their value in use and an impairment of \$60.0 million was recorded to write down the assets to their estimated recoverable amount.

The Company determined that indicators of impairment existed during the six months ended June 30, 2020 with respect to the Company's British Columbia CGU as a result of the Company's disposition of its Kamloops property and decision to suspend further construction and development activities on its Merritt facility due to market conditions and available financing. Approximately \$10.0 million had been invested into the Merritt facility which consisted of land and construction in progress. A test for impairment was performed at the CGU level by comparing the estimated recoverable amount to the carrying values of the assets. The estimated recoverable amount of the assets was determined to be their fair value less costs of disposal and an impairment of \$5.7 million was recorded to write down the assets to their recoverable amount of \$4.2 million.

Refer to note 3 in the condensed consolidated interim financial statements for a description of the accounting policy.

During the three and six months ended June 30, 2021, the Company recognized \$3.7 million as its share of profit of equity-accounted investees.

DISCONTINUED OPERATIONS – ORNAMENTAL FLOWERS

On February 22, 2019, the Company, through its wholly owned subsidiary, Sundial UK Limited, signed a Sale and Purchase Agreement to acquire all the issued and outstanding shares of Project Seed Topco ("Bridge Farm"). The acquisition closed on July 2, 2019.

On May 15, 2020, the Company entered into an agreement to sell all of the outstanding shares of Bridge Farm to a company affiliated with the former management sellers that were parties to the original acquisition (the "Bridge Farm Purchaser") in exchange for (i) the assumption by the Bridge Farm Purchaser of \$45 million of the total \$115 million principal amount outstanding under the Term Debt Facility (thereby reducing the Company's then outstanding obligations thereunder to \$70 million), (ii) the assumption by the Bridge Farm Purchaser of contingent consideration liabilities related to the additional share obligation and remaining earn out obligation under the original Bridge Farm acquisition agreement dated July 2, 2019, and (iii) the cancellation of approximately 2.7 million Sundial common shares, representing all of the shares currently held by the management sellers of Bridge Farm issued in connection with the original acquisition of Bridge Farm by the Company in 2019 (collectively, the "Bridge Farm Disposition").

The sale of Bridge Farm closed on June 5, 2020. The Bridge Farm operations comprised the entire Ornamental Flower segment that was located in the United Kingdom. The Ornamental Flower segment was not previously classified as held-for-sale or as a discontinued operation. The comparative consolidated statement of loss and comprehensive loss and statement of cash flows in the financial statements for the six months ended June 30, 2020 have been re-presented to show the discontinued operation separately from continuing operations. The Company no longer has an Ornamental Flower segment.

During the six months ended June 30, 2020, the Company recorded revenues of \$22.1 million and a net loss of \$34.5 million from Bridge Farm, which includes a loss on the disposition of Bridge Farm of \$15.0 million.

Capital expenditures with respect to discontinued operations during the six months ended June 30, 2020, consisted of \$4.4 million mainly related to construction at Bridge Farm's Clay Lake facility.

During the eight most recent quarters the following items have had a significant chronological impact on the Company's results:

- acquisition of Bridge Farm;
- terminating the investment and royalty agreement with an entity controlled by the Company's former executive chairman;
- non-cash impairment charge of goodwill relating to Bridge Farm's CBD cash generating unit;
- disposition of Bridge Farm;
- issuance and conversion of convertible notes and warrants;
- extinguishment and repayment of the Company's long-term debt;

LIQUIDITY AND CAPITAL RESOURCES

(\$000s)	June 30, 2021	December 31, 2020
Cash and cash equivalents	885,418	60,376

Capital resources are financing resources available to the Company and are defined as the Company's debt and equity. The Company manages its capital resources with the objective of maximizing shareholder value and sustaining future development of the business. The Company manages its capital structure and adjusts it, based on the funds available to the Company, in order to support the Company's activities. The Company may adjust capital spending, issue new equity or issue new debt, subject to the availability of commercial terms.

The Company's primary need for liquidity is to fund investment opportunities, capital expenditures, working capital requirements and for general corporate purposes. The Company's primary source of liquidity historically has been from funds received from the proceeds of common share issuances and debt financing. The Company's ability to fund operations and investments and make planned capital expenditures depends on future operating performance and cash flows, as well as the availability of future financing – all of which is subject to prevailing economic conditions and financial, business and other factors.

Management believes its current capital resources and its ability to manage cash flow and working capital levels will be sufficient to satisfy cash requirements associated with funding the Company's operating expenses to maintain capacity and fund future development activities for at least the next 12 months. However, no assurance can be given that this will be the case or that future sources of capital will not be necessary.

See "Recent Developments – Capital Activities" for more information.

DEBT

As at June 30, 2021, the Company was debt free.

CASH FLOW – OPERATING ACTIVITIES

Net cash used in operating activities was \$70.4 million for the three months ended June 30, 2021 compared to \$12.5 million used in operating activities for the three months ended June 30, 2020. The increase of \$57.9 million was due to investing in marketable securities, partially offset by proceeds from the disposition of marketable securities and change

in non-cash working capital. The change in non-cash working capital is comprised of changes in inventory, accounts receivable, prepaid expenses and deposits and accounts payable.

Net cash used in operating activities from continuing operations was \$104.7 million for the six months ended June 30, 2021 compared to \$30.0 million used in operating activities for the six months ended June 30, 2020. The increase of \$74.7 million was due to investing in marketable securities and the change in non-cash working capital, partially offset by a decrease in net loss adjusted for non-cash items and proceeds from the disposition of marketable securities. The change in non-cash working capital is comprised of changes in inventory, accounts receivable, prepaid expenses and deposits and accounts payable.

CASH FLOW – INVESTING ACTIVITIES

Net cash used in investing activities was \$192.3 million for the three months ended June 30, 2021 compared to \$2.7 million used in investing activities for the three months ended June 30, 2020. The increase of \$189.6 million was mainly due to additions to equity-accounted investees, additions to property, plant and equipment and additions to investments, partially offset by the change in non-cash working capital.

Net cash used in investing activities from continuing operations was \$203.1 million for the six months ended June 30, 2021 compared to \$10.4 million used in investing activities for the six months ended June 30, 2020. The increase of \$192.7 million was mainly due to additions to equity-accounted investees, additions to investments, partially offset by the change in non-cash working capital.

CASH FLOW – FINANCING ACTIVITIES

Net cash provided by financing activities was \$274.7 million for the three months ended June 30, 2021 compared to \$17.4 million provided by financing activities for the three months ended June 30, 2020. The increase of \$257.3 million was due to proceeds from the issuance of shares partially offset by an increase in restricted cash.

Net cash provided by financing activities from continuing operations was \$1.1 billion for the six months ended June 30, 2021 compared to \$17.6 million provided by financing activities for the six months ended June 30, 2020. The increase of \$1.1 billion was mainly due to proceeds from the issuance of shares, proceeds from registered offerings and proceeds from the exercise of derivative warrants, partially offset by an increase in restricted cash.

LIQUIDITY RISKS ASSOCIATED WITH FINANCIAL INSTRUMENTS

CREDIT RISK

Credit risk is the risk of financial loss if the counterparty to a financial transaction fails to meet its obligations. The Company manages risk over its accounts receivable by issuing credit only to credit worthy counterparties. The Company limits its exposure to credit risk over its investments by ensuring the agreements governing the investments are secured in the event of counterparty default. The Company considers financial instruments to have low credit risk when its credit risk rating is equivalent to investment grade. The Company assumes that the credit risk on a financial asset has increased significantly if it is outstanding past the contractual payment terms. The Company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Company.

The Company applies the simplified approach under IFRS 9 and has calculated expected credit losses based on lifetime expected credit losses, taking into consideration historical credit loss experience and financial factors specific to the debtors and general economic conditions.

The Company has evaluated the credit risk of its investments, taking into consideration historical credit loss experience, financial factors specific to the debtors and general economic conditions, and determined the expected credit loss to be nil.

The maximum amount of the Company's credit risk exposure is the carrying amounts of cash and cash equivalents, accounts receivable, and investments. The Company attempts to mitigate such exposure to its cash and cash equivalents by investing only in financial institutions with investment grade credit ratings or secured investments. The Company manages risk over its accounts receivable by issuing credit only to credit worthy counterparties.

LIQUIDITY RISK

Liquidity risk is the risk that the Company cannot meet its financial obligations when due. The Company manages liquidity risk by monitoring operating and growth requirements. The Company prepares forecasts to ensure sufficient liquidity to fulfil obligations and operating plans. Management believes its current capital resources and its ability to manage cash flow and working capital levels will be sufficient to satisfy cash requirements associated with funding the Company's operating expenses to maintain capacity and fund future development activities for at least the next 12 months.

MARKET RISK

Market risk is the risk that changes in market prices will affect the Company's income or value of its holdings of financial instruments. The Company is exposed to market risk in that changes in market prices will cause fluctuations in the fair value of its marketable securities. The fair value of marketable securities are based on quoted market prices as the Company's marketable securities are shares held of publicly traded entities.

CONTRACTUAL COMMITMENTS AND CONTINGENCIES

A) COMMITMENTS

The information presented in the table below reflects managements estimate of the contractual maturities of the Company's obligations at June 30, 2021.

(\$000s)	Less than one year	One to three years	Three to five years	Thereafter	Total
Lease obligations	481	726	134	—	1,341

The Company has entered into certain supply agreements to provide dried cannabis and cannabis products to third parties. The contracts require the provision of various amounts of dried cannabis on or before certain dates. Should the Company not deliver the product in the agreed timeframe, financial penalties apply which may be paid either in product in-kind or cash. Under these agreements, the Company has accrued financial penalties payable as at June 30, 2021 of \$1.5 million (December 31, 2020 - \$1.5 million).

B) CONTINGENCIES

From time to time, the Company may become involved in legal proceedings arising in the ordinary course of our business. Such proceedings, certain of which have been threatened against us, could include commercial litigation related to breach of contract claims brought by our customers, suppliers and contractors, as well as litigation related to termination of certain of our employees. The outcome of any litigation is inherently uncertain. Although we believe we have meritorious defenses against all currently pending and threatened proceedings and intend to vigorously defend all claims if they are brought, unfavorable rulings, judgments or settlement terms could have a material adverse impact on our business and results of operations. See "Item 8. Financial Information - A. Consolidated Statements and Other Financial Information - Legal Proceedings" in the Annual Report.

On May 7, 2020, the Company and certain of its current and former directors and officers were named as defendants in a lawsuit, captioned SUN, a Series of E Squared Investment Fund, LLC et al. v. Sundial Growers Inc. et al., Case No. 1:20-cv-03579. The complaint asserts claims for alleged violations of U.S. federal securities laws, including Sections 12(a)(2) and 15 of the Securities Act of 1933 and Section 10(b) the Securities Exchange Act of 1934, as well as claims for breach of contract, breach of fiduciary duty, fraud in the inducement and negligent misrepresentation. Among other things, the complaint alleges that the company made misrepresentations regarding the licensing and ability of Bridge Farm to export hemp and CBD to Europe, as well as regarding the quality of the Company's cannabis and a return by one of the Company's customers.

We can provide no assurance as to the outcome of these proceedings or any other litigation matter in which we are a party. In particular, securities class action lawsuits are typically costly to defend, and divert the attention of management and other resources from operations and, accordingly, even if resolved in our favor, could have a material adverse effect on our business, financial condition, results of operations and liquidity and may force us to reduce or cease operations or seek relief under the applicable bankruptcy or insolvency laws.

NON-IFRS MEASURES

Certain financial measures in this MD&A including adjusted EBITDA from continuing operations and gross margin before fair value adjustments are non-IFRS measures. These terms are not defined by IFRS and, therefore, may not be comparable to similar measures provided by other companies. These non-IFRS financial measures should not be considered in isolation or as an alternative for measures of performance prepared in accordance with IFRS.

ADJUSTED EBITDA FROM CONTINUING OPERATIONS

Adjusted EBITDA from continuing operations is a non-IFRS measure which the Company uses to evaluate its operating performance. Adjusted EBITDA from continuing operations provides information to investors, analysts, and others to aid in understanding and evaluating the Company's operating results in a similar manner to its management team. Adjusted EBITDA from continuing operations is defined as net income (loss) from continuing operations before finance costs, depreciation and amortization, accretion expense, income tax recovery and excluding change in fair value of biological assets, change in fair value realized through inventory, unrealized foreign exchange gains or losses, share-based compensation expense, asset impairment, gain or loss on disposal of property, plant and equipment and certain one-time non-operating expenses, as determined by management.

The following table reconciles adjusted EBITDA from continuing operations to net loss from continuing operations for the periods noted.

(\$000s)	Three months ended		Six months ended	
	2021	June 30 2020	2021	June 30 2020

Adjusted EBITDA from continuing operations	(205)	(3,898)	3,122	(15,541)

(1) Cost of sales non-cash component is comprised of depreciation expense.

(2) Transaction costs relate to financing activities.

GROSS MARGIN BEFORE FAIR VALUE ADJUSTMENTS

Gross margin before fair value adjustments is a non-IFRS measure which the Company uses to evaluate its operating performance in the Company's cannabis operations segment. Gross margin before fair value adjustments provides useful information to investors, analysts and others in understanding and evaluating the Company's operating results as it removes non-cash fair value metrics. Gross margin before fair value adjustments is defined as gross margin less the non-

cash changes in the fair value adjustments on the sale of inventory and the growth of biological assets. Gross margin before fair value adjustments is comprised of net revenue less cost of sales and inventory obsolescence and impairment. See “Cannabis Operations Segment Results – Gross Margin” for a table reconciling gross margin before fair value adjustments to gross margin for the periods noted.

RELATED PARTIES

LOAN RECEIVABLE AGREEMENTS

At December 31, 2020, the Company had advanced \$139 thousand under employee loan agreements. The terms were non-interest bearing and secured by shareholdings in the Company. The loans were repayable in full upon the departure of an employee from employment, a change in control of the Company or sale of the Company. During the six months ended June 30, 2021, the full \$139 thousand loan balance was settled. At June 30, 2021, the outstanding loan balance was nil.

(b) A member of the Board of Directors was a partner at a law firm prior to his departure which provides legal services to the Company.

All transactions were conducted at the exchange amount agreed to with the related parties.

OFF BALANCE SHEET ARRANGEMENTS

As at June 30, 2021, the Company did not have any off-balance sheet arrangements. The Company has certain operating or rental lease agreements, as disclosed in the Contractual Commitments and Obligations section of this MD&A, which are entered into in the normal course of operations.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company makes assumptions in applying critical accounting estimates that are uncertain at the time the accounting estimate is made and may have a significant effect on the consolidated financial statements. Critical accounting estimates include the classification and recoverable amounts of cash generating units (“CGUs”), value of biological assets and inventory, estimating potential future returns and pricing adjustments on revenue, deferred tax assets, share-based compensation, convertible instruments, financial obligations, acquisitions and fair value of assets acquired and liabilities assumed in a business combination. Critical accounting estimates are based on variable inputs including but not limited to:

- Demand for cannabis for recreational and medical purposes;
- Price of cannabis;
- Expected sales volumes;
- Changes in market discount rates;
- Future development and operating costs;
- Costs to convert harvested cannabis to finished goods;

- Expected yields from cannabis plants;
- Potential returns and pricing adjustments;
- Interpretation of income tax laws;
- Facts and circumstances supporting the likelihood and amount of contingent liabilities; and
- Assumptions and methodologies for the valuation of derivative financial instruments.

Changes in critical accounting estimates can have a significant effect on net income as a result of their impact on revenue, costs of sales, provisions, impairments, losses and income taxes. Changes in critical accounting estimates can have a significant effect on the valuation of biological assets, inventory, property, plant and equipment, provisions, derivative financial instruments and accounts payable.

For a detailed discussion regarding the Company's critical accounting policies and estimates, refer to the notes to the Audited Financial Statements.

NEW ACCOUNTING PRONOUNCEMENTS

The International Accounting Standards Board (IASB) and the IFRS Interpretations Committee regularly issue new and revised accounting pronouncements which have future effective dates and therefore are not reflected in the Company's consolidated financial statements. Once adopted, these new and amended pronouncements may have an impact on the Company's consolidated financial statements. The Company's analysis of recent accounting pronouncements is included in the notes to the Audited Financial Statements.

RISK FACTORS

For a detailed discussion regarding the Company's risk factors, refer to "Item 3D – Risk Factors" section of the Annual Report.

DISCLOSURE CONTROLS AND PROCEDURES

The Company has designed disclosure controls and procedures to provide reasonable assurance that: (i) material information relating to the Company is made known to the Company's Chief Executive Officer and Chief Financial Officer by others, particularly during the period in which the annual and interim filings are being prepared; and (ii) information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time period specified in securities legislation. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended), as of December 31, 2020. Based on such evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were not effective as of December 31, 2020, as further described below.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS as issued by the IASB.

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and overriding of controls. Consequently, an effective internal control system can only provide reasonable, not absolute assurance, with respect to reporting financial information. Further, because of changes in conditions, effectiveness of internal control over financial reporting may vary over time.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting as of December 31, 2020, using the criteria established in the Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based on this assessment our management concluded that, as of December 31, 2020, the Company’s internal control over financial reporting was not effective based on criteria stated in Internal Control – Integrated Framework (2013) issued by the COSO, as further described below.

BACKGROUND

In connection with the audit of the Company’s consolidated financial statements for the fiscal period ended December 31, 2018, management concluded that there were three material weaknesses in the Company’s internal controls over financial reporting. A material weakness is a significant deficiency, or a combination of significant deficiencies, in internal control over financial reporting such that it is reasonably possible that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weaknesses identified include limited number of finance personnel with appropriate experience and knowledge to address complex accounting matters, lack of management review over the valuation model used for biological assets and financing obligations and lack of segregation of duties due to limited number of employees in the finance department. Similar material weaknesses were identified at Bridge Farm.

During the year end December 31, 2019, the Company implemented a remediation plan including measures necessary to address the underlying causes of these material weaknesses. As at December 31, 2019, the material weaknesses related to the limited number of finance personnel with appropriate experience and knowledge to address complex accounting matters and lack of management review over the valuation model used for biological assets and financing obligations were remediated through the addition of numerous professionally designated accountants to bring additional knowledge and expertise relating to complex accounting matters. These professionally designated accountants are directly involved in the preparation and review of these complex accounting matters. The Company has also engaged external third-party advisors when complex accounting matters arose to ensure treatment of those matters was appropriate. The Company will continue to seek external third-party advice when complex accounting matters arise in the future.

DECEMBER 31, 2020 UPDATE

During the year ended December 31, 2020, certain procedures were implemented to address the prior year material weakness through the addition of compensating controls; however, it was not fully remediated at December 31, 2020, and therefore remained as a material weakness as at December 31, 2020.

2021 REMEDIATION PLAN

The Company’s remediation plan is ongoing and involves the engagement of external third-party advisors to assist management in evaluating the design and operating effectiveness of internal controls over financial reporting, including identification of business process improvement areas and documenting the future state of significant business processes.

The Company expects the remediation of the remaining material weakness to be complete by December 31, 2021. Remediation may take longer than the Company expects, and its efforts may not prove to be successful in remediating this material weakness. The Company may also identify additional material weaknesses in its internal control over financial reporting in the future. It should be noted that a control system, including the Company’s disclosure and internal controls and procedures, no matter how well conceived, can provide only reasonable, but not absolute assurance that the objectives of the control system will be met, and it should not be expected that the disclosure and internal controls and procedures will prevent all errors or fraud.

NON-IFRS MEASURES

Certain financial measures in this MD&A do not have a standardized meaning as prescribed by IFRS including adjusted EBITDA and gross margin before fair value adjustments. As such, these measures are considered non-IFRS financial measures. These terms are not defined by IFRS and, therefore, may not be comparable to similar measures provided by other companies. These non-IFRS financial measures should not be considered in isolation or as an alternative for measures of performance prepared in accordance with IFRS. These measures are presented and described in order to provide shareholders and potential investors with additional measures in understanding the Company's operating results in the same manner as the management team. The definition and reconciliation of each non-IFRS measure is presented in the "NON-IFRS MEASURES" section of this MD&A.
